Making Music
An exhibition of Early Musical Instruments at the University of Sheffield
The exhibition showcases the University of Sheffield Department of Music’s collection of original and replica historical musical instruments. The collection was assembled during the ‘early music revival’ of the 1970s and 1980s and provides an opportunity to celebrate the role of the University, the City of Sheffield and Yorkshire in the development and growth of that movement. Visitors will have a unique opportunity to immerse themselves in the sounds and sensations of early music.
